Adjunct Assistant Professor in the Department of Molecular & Medical Pharmacology

The Department of Molecular & Medical Pharmacology (DMMP) in the David Geffen School of Medicine at UCLA is recruiting a physician scientist with MD and PhD training in virology. This position is in the Adjunct series at the Assistant Professor rank.

The candidate is expected to develop a research program in viral infection of the lung and immune response. This individual would be a part of an interdisciplinary collaborative virology research program with faculty members in the UCLA Department of Molecular & Medical Pharmacology. The candidate will also develop immune therapeutic strategy against lung cancers by engineering viral agents. S/he is expected to provide instruction to junior trainees.

Requirements include: PhD and MD; extensive training in molecular and cellular biology during graduate and/or postdoctoral period; expertise in respiratory viral infections, with experience in mouse and human biology and pathology, expertise in large scale data processing and bioinformatics and expertise in genomics and proteomics. Additional required expertise includes influenza virus, HIV, HBV, and immunology. The candidate should have a track record of strong publications in the fields of influenza virus, HIV, and HBV.

The candidate should also have experience training undergraduate and graduate students, as well as giving presentations on research or educational topics in universities and at national/international conferences.

Candidates should submit an application letter with CV addressed to: Virology Education Search Committee Chair, Department of Molecular and Medical Pharmacology, David Geffen School of Medicine at UCLA via UCLA Academic Recruit (https://recruit.apo.ucla.edu/JPF05127), and provide a statement of research and education plan appropriate for the position, and three letters of recommendation sent to the same address.

The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, age or protected veteran status.
