The Department of Molecular and Medical Pharmacology is recruiting for a Project Scientist at the Assistant level. The candidate will study virus host interactions, with an emphasis on influenza virus while assisting studies of other viruses (HIV, herpesviruses and ZIKA virus). Also involved are studies of molecular interactions critical for viral replication and help developing vaccine candidates against influenza viruses and for cancer immune therapy. The candidate will be expected to help supervise graduate students and undergraduate students in the lab.

Requirements for the position: PhD in cell biology or biochemistry, postdoctoral research experience in influenza virus and a strong publication track record. Experience in viral genomics, academic management, and excellent scientific writing skills are also a must.

To apply, please submit a cover letter, CV, and the contact information for three references at https://recruit.apo.ucla.edu/JPF04748
