Adjunct Assistant Professor Faculty Position, Department of Molecular and Medical Pharmacology and Ahmanson Translational Imaging Division, David Geffen School of Medicine at UCLA

The UCLA Department of Molecular and Medical Pharmacology and its Ahmanson Translational Imaging Division are recruiting a Ph.D at the Assistant Professor level for an Adjunct series appointment.

A strong background in organic chemistry, radiochemistry and experience in the operation of a cyclotron based radiopharmacy along with the knowledge of FDA cGMP compliance for Positron Emission Tomography (PET) probe production is required.

The candidate is expected to oversee the cyclotron and PET radiochemistry facilities in the Ahmanson Translational Imaging Division for clinical and preclinical PET probe productions in compliance with internal and external safety and cGMP requirements. The candidate is also expected to work closely with chemists and radiochemists in supporting imaging probe translation to the clinic.

The candidate is also expected to teach technicians and students the fundamentals of clinical grade radiotracer production and FDA compliant operations and teach in the interdepartmental Physics and Biology in Medicine graduate student program.

The search process will be open until filled.

Candidates should submit a letter of interest and CV addressed to: Adjunct Faculty Search Committee Chair, Department of Molecular and Medical Pharmacology, David Geffen School of Medicine at UCLA via UCLA Academic Recruit (https://recruit.apo.ucla.edu/apply/JPF01136), and arrange to have three letters of recommendation sent to the same address. The University of California is an Equal Opportunity Employer committed to excellence through diversity. All qualified applicants are encouraged to apply, including minorities and women.
