The Department of Molecular & Medical Pharmacology and the Crump Institute for Molecular Imaging present
FACULTY CANDIDATE SYMPOSIUM
April 15 and April 18, 2019, 10:00 AM—12:00 PM
Boyer Hall 159

MONDAY, APRIL 15

10:00 AM
Targeting endocytic trafficking systems to improve antibody-directed imaging and therapy
PATRICIA PEREIRA, PH.D.
Tow Research Fellow, Department of Radiology
Memorial Sloan Kettering Cancer Center

11:00 AM
Smart Molecular Probes for Imaging Infectious Disease and Cancer
JINGHANG XIE, PH.D.
Postdoctoral Research Fellow
Molecular Imaging Program at Stanford (MIPS)
Departments of Radiology and Chemistry
Stanford University School of Medicine

THURSDAY, APRIL 18

10:00 AM
PET Imaging for Disease Interrogation and Personalized Theranostic Interventions
REINIER HERNANDEZ, PH.D.
Research Associate
Department of Radiology
University of Wisconsin

11:00 AM
Shedding light on the mechanism of action of immunotherapeutics with positron emission tomography
TAYO IKOTUN, PH.D.
Senior Research Investigator
Preclinical Imaging, Translational Sciences
Bristol-Myers Squibb
